Sensible English Notions about the Care of Horses.

[London Agricultural Gazette]

To guard against chills and colds with the loss of time, expense and risk of unsound wind which often follows, horse owners require to be on the alert especially at this season of the year Horses alternately sharply worked and when hot allowed to stand in the open air unnecessarily cool should have warm coverings water proof on one side for their back and loins Farm as well as town horses often catch cold whilst their thirsty drivers are leisurely refreshing in the public house and the mischief is sometimes aggravated by the extra spurt which is put on to make up lost time Many horses especially if they have senselessly been allowed to lie out during the later autumn nights have already grown a long thick winter coat, which causes ready perspiration It is almost impossible to get them properly dry They stand chilled throughout the greater part of the night and hence thrive indifferently and are especially liable to colds Whether of the light or heavier breeds all horses which from habit or previous management grow these long heavy coats should be singed or clipped entirely or partially Trimming or singing the long hairs along the chest and belly and down the legs to the knees and hocks usually suffices for farm horses Where hard or fast work is required, the Irish plan of clipping the hair from the chest belly arms and thighs proves a great comfort to the horse and often saves half a bushel of corn a week If they are to do their work cheerfully and well horses changing their coats require for some weeks a little extra corn or other good food Horses recently brought into full work require more consideration than they receive It is apt to be forgotten that condition is acquired slowly as the result of good feeding, and properly regulated exercise or work

Many promising young horses are brought up to London and other large towns fresh and fat but wanting hard condition unfit to stand severe work but at this season largely contribute to the sickness and mortality Young unseasoned horses whether at town or farm work, if they are to maintain health and condition should have a frequent off day, and should be rested whenever they show dullness loss of appetite or cold By the gradual breathing in of their new recruits by never allowing a horse to go to work which had failed to clear up his supper or that showed any sign of ailment, the London General Omnibus Company have recently reduced by one-half the casualties among their horses The same sensible principles intelligently carried out will secure the same salutary results in other stables throughout our own country

The streetcar horses of the Lucky Gulch mining company met in Rosburg, last Tuesday and elected the following named directors for the ensuing year Wm Wallace Arthur D V Stevens R Mallory John F Bell Chairman and Brainerd Jr W Smith President D V Stevens Secretary Freeman Nedrich Treasurer Mr Bell was empowered to contract with the Rosburg and Lucky Gulch railroad company for the use of their road for the ensuing year

THE SUTRO TUNNEL WAR.

What the Managers of Savage Propose To Do

SAN FRANCISCO, Feb 2—The *Post* last evening publishes an interview with John W Coleman, one of the directors of the Savage mine, regarding the imbroglio between the mines and Sutro Coleman states that if Sutro refuses to recognize his contract with the Savage company to take off water from the mine on payment of a royal y of $2 per ton on ores, and other rates on supplies etc, handled through the tunnel the Savage company will immediately take action against him In reply to a question as to what the Savage company will do with regard to getting rid of water Coleman said that a communication shaft will soon be ready to send water into the tunnel If Sutro impedes its flow by means of a dam or bulkhead we shall take action accordingly There is a clause in our contract with him which explicitly states that mining companies shall be allowed to remove whatever obstructions there may be in the tunnel We may take advantage of this or we may begin suit It was are presented from sending out water through the tunnel we shall do the best we can to remove it in another manner We shall send as much of it to the combination shaft through the night ning drift as we can there to be taken to the surface in skeets or baling tanks The balance we shall pump in our usual way to the surface At any rate we shall make a determined effort to lower water to our 2 500 foot level This accomplished, we shall build a strong bulkhead at the mouth of the drift through which the water comes If we can effectively stay the flood in this manner progressing operations in the lower levels will be resumed and we shall cautiously feel our way around with diamond drills to guard against inflowing fissures

The Situation at Virginia

A Virginia City dispatch says that this morning Judge Rising gave the Savage company an injunction restraining Sutro from building a bulkhead in the tunnel or in any way preventing water from flowing through it Savage gave bonds of $20 000 to indemnify Sutro for any damage resulting from water entering the tunnel Pumping will begin at once and water will be sent into the tunnel Sutro has a body of armed men in readiness at the connect on between the tunnel and combina tion shaft The Savage company does not intend to employ fighters as they are confident they can disperse a regiment by a judicious use of pumps and hot water

Sutro's Men Arrested

Early this morning, eighteen miners were brought up from the Savage by deputy sheriffs sent to serve an injunction on Sutro restraining the sinking of the winze intended to send water from the tunnel to the Savage They were found in the winze at work At first they made a show of resistance and presented pistols The sheriff's gang went down and captured the entire party They were brought up through the Savage, half naked as their clothes were at the Sutro Gillett bought new outfits gave them food and they were marched to jail This evening they were let out by order of the court on their own recognizance Savage will fill up the winze at once

Attempts at Arbitration

SAN FRANCISCO Feb 2—Referring to the sensational rumors in Virginia City concerning the war be ween the Sutro Tunnel Co and the mines the *Stock Report* says One of the gentlemen connected with the arbitration committee authorized the *Stock Report* representative to say that the matter would no doubt be arranged by the time the Savage and Norcross companies were ready to use the tunnel, or at least a few days later and that though he was not at liberty to say how far matter had gone he would say that negotiations now only depended upon the approval of a certain proposition in Nevada block

Yamhill *Reporter* The crops have passed through the frosty season and are unimpaired —in fact the frost has been a great benefit This is the report from every locality in this county and adjacent farms One of the most successful farmers on the whole westside gives it as his opinion that the crop through out the valley will be increased five bushels to the acre in consequence of the freeze and our farmers generally are in cheerful spirits over the result Grain is not killed out by frost so easily as some imagine Unless the ground be very wet, so that the freezing and thawing process moves and displaces the roots from the soil there is no danger The plant may take a sickly look—in fact that is the case now and is expected—but that does not matter so long as the roots of the grain are preserved During the cold weather of this winter the ground has been quite dry and the contraction and expansion of the surface were slight so that while the roots of the grain have not been disturbed the action of the frost left the ground light and mellow and in excellent condition for a rapid and healthy growth The wild oats too have been set back so that grain will have the advantage of them and that is an item of no small moment itself Altogether the prospect is unusually flattering and unless we have weather more severe than we have any reason to expect from this time on we will have the largest crop next harvest ever beheld in the country

HOW AMONG THE JOHNS

The Oregon City *Enterprise* says

On Monday afternoon considerable excitement was created in our otherwise quiet city by the report that a Chinaman had been killed at the China railroad but near the depot Hastening to the affrighted scene of the butchery, we found upon arriving there that although there had been considerable fighting, yet the reports far exceeded the actual facts From conversation with a number of the most intelligent Chinamen in the city we learned that one Ling Sing, a member of the recent gang on the railroad and at the same time not a member of the same company that figured in the gang fight had been attacked about the noon hour of the time mentioned However after we came to Jones on Sunday and left Mr Jones to proceed by Abraham Hurlburt and Co's conveyance we found a quiet and pleasant contented feeling among the Chinamen and we have not heard that Ling Sing would have any further trouble with his countrymen We learned from the county officials that Monday morning the Chinamen were all at their work on the railroad and that everything was quiet Ling Sing is not dead but is lying at the house of Dr Whittle in a critical condition and will probably recover

House.

The speaker announced that the regular order of business was the morning hour and pending bill to be a bill for the relief of Maggie Barron

Chalmers said that he cared nothing for the payment of local southern claims because loyalty to the union during the war meant disloyalty to everything he held dear That many men in the south had been loyal to the union was nevertheless true and he did not envy the cheap political capital a union soldier could make by belittling such men He had no more confidence in their honesty than the mouse had in a stuffed catskin The gentleman from Wisconsin had found a bloodier shirt than had ever waved from the battlements of the Republican party, and he was stretching his legs in a frantic effort to climb up to the Republican platform and rob it of its last banner He had reminded the south of the war debt and of the blood of union soldiers for which the south was responsible He (Chalmers) would remind the gentleman that the war debt was not yet paid and that the union and inbelle states were paying for more of that debt than Wisconsin He (Chalmers) would reply to the gentleman's remarks on certain supposed claims of southern Democrats that if there were any Democrats or disappointed Republicans in the north who could not get to congress without putting on the lion's skins of Democracy they could and he very careful not to open their mouths too wide when they got there (Laughter)

Hooker said that every claim against the government should be absolutely and completely divorced from political sentiment that no member on either side would regard it as a political question on which parties could be divided such questions should be passed upon according to justice and right not according to partisanship Garfield had well predicted not long since that any man who attempted to appeal again to sectional jealousy and sectional animosities on the floor of the house would appeal in vain He hoped such an appeal would be as powerless to effect its object coming from one side of the chamber as coming from the other He (Hooker) could not forget that when the war closed and there were various measures of legislation proposed and enacted to lay the iron heel of oppression still heavier on the south there was found to be a gallant minority of members in the house led by the present speaker, who resisted these efforts and banded together to restore the government to its constitutional orbit. Members from the south and from the north felt this, they had found manly defenders on the part of the northern Democracy men who were willing to throw the mantle of oblivion over the accidents of the war and who were not willing to rake up its dead embers If any one supposed there was any other band he knew them than that of right and justice he had no conception of it which had not been brought to bay by southern Republicans Southern Democrats had voted for the bill to pay $90 000 000 arrearages Pensions the regular pension appropriation bill of $30 000 000 $500 000 for the Canadian fisheries and innumerable claims of that sort and had never asked a question where the money would go but now that it was proposed to refer some southern claim to the proper tribunal it was said that they would not do that is human might decide the claim to be a just one but that it was too large to be paid A large portion of claims now standing on the calendar had been presented years ago, long before there was a single Democrat in the house from the southern states He denied the right of any man to charge the Democracy of the south with treasonable designs against the government He thought he could state for the Democracy of the north as well as of the south that they were united for the maintenance of the constitution and good government and not by any such the charge attributed to by Ingersoll

This expressed his belief that not one dollar of money paid for war claims had gone to the man whose heart had been in sympathy with the confederate cause Where had the money been found in southern states during the war It had been found among the sutlers and dead beats and scalawags to peddle the federal army They were speculators that was all they had no country To such men about $100 000 000 had been paid He had always voted against such claims and he was in favor of a constitutional amendment excluding such claims forever

The house refused 77 to 11 to consider the army reorganization bill and went into committee on the army appropriation bill

Pendleton *Independent* A petition is being circulated asking subscriptions to build a wagon road from Pendleton up the river to connect with the road over the mountains and the Weston road Another road is badly needed leading from Pendleton out to the Greenwood settlement along Wild Horse to Umatilla Springs city in

COMMON SCHOOLS

That the views which this paper has frequently expressed as to the necessity of maintaining the public schools simply as common schools and arresting the growth of the so called high school as subversive of the intent and ends of the public school system are neither novel nor erroneously founded may be shown by examples enough In the message recently delivered to the legislature of of New York by the governor of that state the subject is discussed with unusual clearness and force It is properly observed that to the extent of giving every child a good common school education sufficient to enable him or her to understand or perform the duties of citizenship and to carry on intelligently and successfully the ordinary labors of life the common schools are and should be objects of the deepest concern to the whole community To the few who desire and are capable of a still higher education and who have ambition to shine as professional men and in the arts of literature music painting and poetry the door is wide open to them to win distinctions in those callings. But the governor of New York does not hesitate to say that to levy taxes on the people for such purposes as those last named is a species of legalized robbery and even the recipients come to know it Their sense of justice cannot fail to condemn it it lowers the standard of morals, and helps to debauch, instead of purifying public opinion It also, he observes breeds discontent on the part of those who are educated or attempted to be educated to something above or different from that for which they are fitted and implants in their minds the false notion that it is the duty of society to take care of them all their lives Moreover, it really disqualifies them for duties and labors to which they are by nature adapted so that not only great injustice but great demoralization is the result of a system which collects money by force from one man to educate the children of another man for callings which they can never fill To the argument sometimes advanced that the system is a benefit to the children of the poor the governor answers that it is fallacious, because the children of the poor generally leave the schools with a common school education and go to work for themselves or their parents Yet while the poor man's children are thus at work, his little home is taxed to give to the children of others a collegiate education Nine in ten of those educated in the so called high schools at the public expense would far better pay their own bills than to have them paid by the people of the state It is added that these views are so manifestly just that there can be no doubt that they must ultimately prevail, and it is asserted that the normal schools established in various parts of the state of New York are, with very few exceptions, wholly useless and fail entirely to accomplish the objects for which they were established and for which the state is annually paying large sums of money from the treasury. The above is a close summary of the governor's argument, and it agrees well with the views of all who have attentively considered the subject. One result of the discussion in our own state has been the creation of a public sentiment which will prevent any further direct appropriations from the treasury like those so long made in favor of the college at Corvallis In all the states where the so called high school has been grafted on the common school system there are protests against it, similar to that made by the governor of New York, indicating a purpose to enforce the maintenance of the public schools simply as common schools according to the original design.

NEW RAILROAD BILL

The house committee has refused to report the senate or Mitchell bill relating to the Northern Pacific railroad That measure, therefore, will never again be heard of As a substitute for it, and for all other bills heretofore presented, the house committee has prepared a bill whose main features are substantially these

The bill provides for renewal of the grant both for the main line by way of the Columbia river to Portland and for the branch line across the Cascade mountains by the Yakima and Puyallup to Puget Sound Ten years time is to be allowed for completion of the main line and five years for the completion of the branch From Portland as far east as Umatilla the main line is to be built on the south side of the Columbia river Within one year after the passage of the act at least one hundred miles of the main line in addition to the road already completed shall be constructed, at least twenty five miles of which shall be west of the Rocky mountains Other provisions are similar to those reported in bills presented heretofore

It can scarcely be possible that any bill will pass now But four weeks of the session remain, and the time will be taken up with measures which have precedence of this or with the usual partisan play for political effect with which time is always consumed as a session nears its end A year ago a bill quite favorable to the interests of Oregon might have been got through Everybody is thoroughly familiar with the causes which prevented such result We need not recount them At this time there is nothing to say except that there seems to be no further prospect for any bill.

Eastern papers which reached Portland by Saturday's mail brought the *Standard* another large lot of telegrams, of which the following is a specimen

[FROM THE STANDARD, Feb 2.] [FROM THE CHICAGO TRIBUNE Jan 22]

CEDAR RAPIDS Ia., Feb 1—A despatch received here this morning states that Samuel Greene nephew of Judge Greene of Joseph Greene of this city, was found frozen to death in Colorado in the latter part of January He had started between Silverton and Antelope Park He was found city was frozen to death on the 18th inst. in Colorado while travelling on foot between his way here to join his wife, and was spending the winter with her Silverton and Antelope Park when he was overtaken by a severe storm

CEDAR RAPIDS Ia. Jan 1—The news reached here this morning that Samuel Greene nephew of Joseph Greene of this city, was found frozen to death on the 18th inst. in Colorado while travelling between Silverton and Antelope Park He was on foot between his way here to join his wife, and was spending the winter with her Silverton and Antelope Park when he was overtaken by a severe storm

We might go through its daily string of telegrams from various parts of the world with like results but it is unnecessary The business of reprinting stale items coming from the east by mail under varied dates so as to deceive people with an appearance of news will make your paper still more successful Tony than it has ever been—a pretty fact

A statement appears in the *Standard* purporting to be from the Roseburg *Independent* in regard to a reported interview with Mr Sol Abraham concerning the purchase of a medicine chest by Jesse N Barker for use in the Modoc war Mr Abraham says that Mr Barker never purchased a medicine chest from him, and the printing expert thereupon assumes that the investigating committee have made a false report. Now the fact is published there is no reference to any purchase of a medicine chest from Sol Abraham or any one else and we are told that there is nothing of the kind in any part of the report This is a little effort to divert public attention from what the committee *did* report by alleging error or falsehood in a matter not reported at all The statement that the *Independent* is a Republican paper is of a piece with the other It is not a Republican paper and does not claim to be

So strange a story as that of the confusion of tongues at the tower of Babel the Salt Lake *Tribune* thinks must have a prophetic signification It sees the plural marriage system of the Mormons foreshadowed in it

Some of the trades union in England and Wales are offering premiums to their members to emigrate to America and Australia

ENGLAND BEGINS TO SEE IT

[From the London World

Even the insular conceit of Englishmen might shrink from calling all men fools except the believers in the Gospel according to Adam Smith as by them annotated and interpreted Seeing that the shrewd and sharp witted Yankee the ponderous and deeply revolving German, the quick and ready Frenchman, and pretty nearly the whole world besides including John Bull's colonial descendants and dependents are all sailing in different boats from John Bull himself, it would only be decent for that old gentleman to be a little less loud in his outcries that his boat alone will can or ever would should or could shoot Niagara It is a hard saying that all people that on earth do dwell except the twenty seven millions— mostly fools!—of the United Kingdom are blatant idiots in matters regarding free trade protection and reciprocity For our part we not only doubt the sweeping postulate, but we find very good reason in the trade and commerce of the United Kingdom for altogether disbelieving in the alleged enormous profits of a one sided free trade, which has taught the foreigner to beat us with our own weapons by the free use of our own supplies Free trade is to be commended as a method of commerce, but it is a delusion and a snare when it is made a fetish of With free trade, as without it, common sense is essential in controlling international trading relations for if we only keep on mumbling prayers to our idol, while the foreigner is pushing us from his and undercutting us in our markets we are little likely to witness brilliant results as the reward of our faith Now that we see the nations of the earth banded together as one man to protect their industries by destroying markets for ours or to insist upon reciprocal benefits as a return for any trading advantages they tardily offer we shall have to reconsider matters in the light of facts away from the misleading will o the wisps of theory and abstract dogma Prince Bismarck is not an utter idiot, and when he says it will profit Germany more to raise the additional revenue fund to be indispensable through duties on certain articles of foreign manufacture than by direct taxation he is likely to obtain a hearing It is not the chancellor who proposes to impose taxes on food products or on the raw materials of German industries though some of the German people have been foolish enough to do that Depend upon it, Prince Bismarck knows what he is about in thinking first of German interests, and allowing the universal cosmopolitan interests to take care of themselves

The Coos Bay *Mail* says The price at which Mr Warren has taken the contract for carrying the mail from Roseburg to Empire City is $5 300 This is about $2 000 less than the actual cost of the service but Mr Warren is a man extensively interested in stage lines and mail contracts, and he can afford to pay for the luxury of running this route

Love.
How sweet when love pervades the breast,
And all our actions guide
'Tis this that makes us truly blest
When by a dear one's side

Love's Confession.
Oh! let the truth by her confest
Sink deep within thy heart,
With thee alone shall I be blest
Till call'd with life to part

Forget Me Not
I crave one little favor
Oh! be it not forgot
'Tis this while memory reigneth
Dear friend forget me no

True Love.
A love that's firm, a heart that's true
My dearest one I offer you
Oh! do not then the offering spurn
But give affection in return

Remember Me
Remember me whose fervent love
Is true to thee as heaven above
Whose heart thine own will ever be
Then dearest one, remember me.

Thine Forever
In vain in vain
Love's mystic chain
To break would I endeavor
Then let me own
I'm thine alone
Thine dearest one forever

Good Wishes
Oh smooth be thy path
And unclouded thy sky
And joy and prosperity
Ever be nigh!
May hope go before thee
And love walk beside thee
And peace hover o'er thee
What'er may befide

Remember Me.
Remember me thou leav'st behind
Whose heart is warmly bound to thee,
Close as the fond rest links can bind
A heart as warm as heart can be

To One I Love
Oh how beautiful is love
Sweetest earthly treasure
Learn it of the tender dove—
May it be thy pleasure

Good Wishes
Oh may thy way through life
Be like the Summer tide
On which the white winged bark
With tranquil motion glides
May every joy be mine!
And every hope fulfilled
As calms the bark her port
When stormy winds are stilled

CITY.

ENDOWMENT RANK.—A number of members of the Knights of Pythias of this city organized Endowment Rank No. 201, K. of P., Friday evening. The organization is somewhat similar to the Encampment in Odd Fellowship and has for its object the securing to the families of its members $1000, $2000 or $3000 in case of death. The Rank in this city was instituted last night by D. E. Buchanan, Deputy Supreme Chancellor for Oregon. The following officers were elected: President, Louis Lachmann; Vice-President, John Holmes; Secretary and Treasurer, Geo. S. H. Jackson; Chaplain, Alfred Evans; Guide, F. R. Neale; Guard, W. H. S. Comie; Sentinel, Chas. Fellows.

ENTERPRISE, YOU KNOW.—The *Standard*, "the only reliable and enterprising newspaper on the northwest coast," according to its own declaration, states in its issue of yesterday that Mr. Oscar Kilbourn, U. S. gauger, had just returned from an official trip to Jackson county. THE OREGONIAN last Tuesday contained the same announcement. The *Standard* also says that Mr. William Condon came up on the steamer *Oregon*, and was lying dangerously ill at St. Vincent's Hospital. Mr. Condon died at the hospital at 5 o'clock last Friday morning, and was buried Saturday. Such journalistic enterprise deserves the highest commendation.

FROM ASTORIA.—From Messrs. Trenchard & Upshur the following dispatch was received at 10 A. M. Saturday: Br ship *Hannah Landles* started out and anchored in Baker's bay. Light east wind; clear weather. A dispatch yesterday at 10 A. M. says: Wind high from northeast; no vessels have crossed out; weather clear. A later dispatch says that the steamship *Oregon* arrived down and would leave to cross out early to-morrow.

THE INCLINE.—For some time a force of workmen have been engaged in extending the incline at the O. S. N. Co.'s landing at the Dalles. The work is now nearly finished. Some two hundred yards of double track has been laid in the most substantial manner. Hundreds of tons of rock have been removed, and the end of the incline now wears the air of an improved appearance.

U. S. CIRCUIT COURT.—Judge Deady will announce a decision in this court this morning in the case of Coulsen vs. Holmes.

ARRIVALS.

A CELEBRATED CASE.—Active preparations are going on at the New Market for the production of this great play on Wednesday evening, in the shape of thorough rehearsals, etc., and from the time given to it theater goers may well look forward to one of the most finished performances ever given in the city. Mr. Maguire had a magnificent new palace scene painted by Porter previous to his departure, which will be exhibited for the first time in this play. All the ladies wear the Pompadour wigs, and the gentlemen will be dressed in the correct costumes of the period. Being a semi military piece, the soldiers wear the correct uniform of the Irish brigade at Fontenoy—Mr. John Maguire having procured all the necessary appointments from the Baldwin theater, San Francisco, where the play in question had an immense run to crowded houses. So great was its success that the manager of the Baldwin had it frequently revived after the original run and always to large business. "Little Maud" plays her original part here, as played by her with the Union Square company, Miss Annie Adams, also from the Baldwin, plays Adrienne, a highly emotional part, while the cast embraces Miss Lottie Wade, Miss Georgie Woodthorpe, Mr. J. S. Lindsay (who is appointed stage manager) Mr. Ward, Mr. C. Leman, etc. The praiseworthy efforts of Mr. Maguire in giving the very latest novelties and best attractions in the theatrical world deserves the hearty encouragement of the citizens of Portland. The box opens at 10 this morning, and those who want choice seats had better secure them at once.

VALENTINES.

That day of the year when, by common consent and time-sacred custom, sentiment in youth and folly in age needs no apology, draws seats and the gaudy displays of valentines already adorning First street windows indicate that it will be celebrated even more generally than usual. The latest and most prominent display is made by Mrs. Wm McCabe, the special agent of St. Valentine himself, who has engaged for the season the large show window of Morse's Palace of Art, and placed in it the finest array of valentines ever exhibited on the Pacific coast. He has in stock ready made missives of every variety, from a ten dollar poem to a three cen. "comic," and expressing in varying styles of elgance, to suit every caprice of fancy or circumstance of purse, and every tone of sentiment or passion. The various shades of look are nicely drawn. Bitter hate can here find envenomed snafu, and dignified respect its decent messenger, all at accommodating and equitable rates. His "comics," which are cheap almost as blank paper, burlesque every calling and situation of life, sometimes in numerous deplacment, and often striking with the stinging lash of sarcasm near unpleasant truth. Mr. McCabe will also supply the trade.

UP THE COLUMBIA.

Dispatches from up the Columbia last evening at 6:30 o'clock indicate the following state of the weather:

Umatilla—Thermometer 30; wind from north east.

Willow—Clear; brisk Chinook wind; ther. 36.

Wallula—Ther 30; wind has changed and is now from northwest; it has been blowing up stream for some time this afternoon; river at a stand and full of ice.

Celilo—Clear; ther. 40; up stream wind; considerable ice.

BREADSTUFFS BY THE CENTAL.

The following correspondence recently received by the Board of Trade of this city which shows the progress being made in the efforts to secure the adoption of the cental system in weighing breadstuffs was crowded out of our last issue:

NEW YORK PRODUCE EXCHANGE, NEW YORK, Jan. 16, 1879.

To Wm. Reid, Esq., Secretary of the Board of Trade of Portland, Oregon:

DEAR SIR:—Referring to my communication to you of December 20th, asking whether your institution would co-operate with this Exchange in efforts to introduce the cental system throughout your state and the United States, I beg to enclose you the following extract from a letter received from our Liverpool correspondent, bearing upon this subject, and remain, very respectfully yours,

A. A. STEVENS,
Chairman Committee on Trade.

LIVERPOOL, Jan. 2, 1879.

Franklin Edson Esq., President Produce Exchange of New York:

DEAR SIR:—We had the pleasure of addressing you on the 19th ult. We then indicated the approach of the cental to legalization and its use for all breadstuffs. The former is now an accomplished fact; the latter is being practically applied, and we propose to enable you, say on the 16th inst., the word "cental," which will indicate that all quotations thereafter read per cental, thus upon

Indian corn—4s. 7d. per cental is required to 22s. 6d. per 48 pounds former rnode; 4s. 8d. per cental required to 22s. 6d. per 480 pounds former mode; 4s. 9½d. per cental required to 23s. per 480 pounds former mode; 4s. 10½d. per cental required to 23s. 6d. per 480 pounds former mode.

Flour—This brings us to what is however of much importance, namely the aid your secretary can give in inducing your flour millers to pack flour—20 pounds into *each barrel* or sack. We are aware some grievance is felt on your side at our now long established tare of 20 pounds to the barrel—as shortage is exaggerated thereby thrown private opinion is that if the barrel of flour (when packed in barrels) was held to be 2 8 pounds gross and quoted and sold per 100 pounds or two cents (less 18 pounds tare for the barrel) substantial justice would be done and the more 5 lb sack flour is now all weighed gross, the 4 lb., 3 lb, or 2 lb. sack going at the same price, as flour, whilst nothing is also said (where barreled) for the empty barrel. We in Liverpool shall use our best exertions to get it settled on this basis if your millers would agree to pack 2 8 lbs. gross, or 200 lbs. flour to the barrel. New York and Chicago undoubtedly should accompanish this great reform and Universalize the cental all over the United States before January 1879 runs out.

INTERESTING TO LADIES.—Dickey's "Creme de Lis" has now been before the public for ten years, during which time this beautiful preparation has met with the highest approval at the hands of the fair sex—being as all who have used it will verify, the only perfect preparation of its kind. Every ingredient entering the composition of Dickey's "Creme de Lis" is subjected to the most rigid test of modern Chemistry, to insure the uniformity and purity of its combination, and neither time nor expense have been spared to make it perfect—it being well known the public will appreciate and support a truly meritorious article. Several new beautifiers under various names have lately started into existence, but Dickey's "Creme de Lis" has no competition in merit. Sold by all druggists.

PORTLAND LIBRARY ASSOCIATION.

The annual meeting of the members of the library association of Portland was held in the library room on Saturday evening, Feb. 1st, 1879.

Matthew P. Deady, president, in the chair. The minutes of the last annual meeting were read and approved.

The president then read his annual report, which, on motion of Mr. C. H. Lewis, was received and ordered to be entered in the minutes.

Mr. Corbett moved that the thanks of this association are hereby tendered to its honored president for his able and efficient services during the past year, especially for his valuable aid in securing subscriptions for and the preparation of the catalogues and annual reports. Motion carried.

A. C. Gibbs offered the following resolution: *Resolved*, That the members be and are hereby requested to collect and present to the librarian such pamphlets as they may think will be of value, with a view of having them put in some form for preservation by the directors. Adopted.

On motion meeting adjourned

President's Report.

To the Members of the Library Association, Portland, Oregon:

As required by the constitution of the association, I hereby report to you the "general doings and condition" of the society during the year 1878

Although no great gains have been made during this period, yet there has been a steady and noticeable improvement in all the elements of strength, prosperity and usefulness in the increase of books, members and current receipts, as well as in the management and growth of our permanent funds, the record of 1878 is full of encouragement; and hope for the future.

During the year 500 copies of the amended constitution and by-laws together with the annual reports of the association since 1872 have been published in pamphlet form; and also 600 copies of a catalogue of 174 pages and representing the works in the library of July 12, 1878, at a total cost of $990 85, all of which, except $41 30, has been paid from special contributions obtained from the friends of the library and the sale of catalogues. In short, it is enough to say, that the association appears to keep pace with the vigorous growth and prosperity of the city and its surroundings, and that the library merits and receives the good will and appreciation of the general public

The following details concerning the working and condition of the library are drawn from the books of the association, the annual report of the librarian, Mr. Henry A. Oxer, of the treasurer, Mr. Philip C. Schuyler, and of the finance committee, Mr. Henry Failing and Mr. C. H. Lewis.

BOOKS AND MEMBERSHIP.

At the close of the year 1877 there were 8,724 volumes in the library. During the past year there was added to the library 426 volumes—185 by donation and 418 by purchase at a cost of $429 10, making the whole number of volumes in the library at the close of 1878, as appears by the register 9,150 But upon an actual count of the books upon the shelves for the purpose of preparing the manuscript of the catalogue it was found that there were 290 less than the number on the register. The difference is accounted for by the librarian as follows:

Fiction	11,592
Miscellaneous	606
Travels	901
Biography	601
History	462
Poetry	230
Science	439
Religion	1,000
Bound periodicals	2,500
Govt.	800

Being an increase of 1,673 volumes, or 8 and a fraction per centum over the number loaned in 1877

A list of the newspapers and periodicals received at the library rooms during the year, and of the books presented to the association, is appended The publishers of newspapers in the state and neighboring territories kindly continue to furnish us with their valuable publications gratuitously.

During the year 1878 there were 171 persons members of the association, classified as follows: Perpetual, 51; life, 1; yearly, 2; quarterly, 179, monthly, 243; and honorary, 14; against 451 members in 1877, classified as follows: Perpetual, 45, life, 1; yearly, 2; quarterly, 179, monthly, 2 3, and honorary, 11.

The average of the quarterly and monthly membership for 1878, obtained by dividing the whole amount of dues ($2,282) received on that account by $12—the amount of dues for a year—is 190⅔. In 1877 it was 182 2-3rd. It is gratifying to note an increase of the average of subscribing members, and particularly of three perpetual members.

THE GENERAL FUND.

The receipts and expenditures of this fund during the year 1878 were as follows:

RECEIPTS.

Yearly dues	$ 50 00
Monthly dues	2 282 00
Fines	80
Sale of furniture	21 00
Total receipts	$2,439 20

EXPENDITURES

J K. Gill	36 91
Miscellaneous	37 82
Furniture	21 25
Total of expenditures	$2,127 41
Excess of receipts over expenditures	$ 311 79

The condition of this fund on December 31, 1877, was as follows:

Overdraft as per report of treasurer	$308 17
Outstanding warrants	144 50
Reserved salary of librarian	100 00
Total liability of fund	$612 67

And on December 31, 1878, as follows:

Overdraft as per report of treasurer	$196 88
Outstanding warrant	4 00
Reserved salary of librarian	100 00
Total liability of fund	$300 88
Net gain for the year 1878	$311 79

The receipts from the sales of books and papers have heretofore been carried into this account, but this year they have been credited to the L. of B fund. There was received from this source $12 20. On the other hand the expense of binding books which formerly belong to this account has been charged to the L of B fund. There was expended on this account during the year $53 25.

THE HOME FUND.

On December 31, 1877, this fund amounted to $11,316 46, of which $10,700 was loaned on note and mortgage, and $616 46 was in the hands of the treasurer

On December 31, 1878, there was loaned on note and mortgage $11,500, and in the hands of the treasurer, cash, $1 255 48, making in all the sum of $12,755 48 The increase of the fund from interest received during the year has been $1,438 02. The origin of this fund—$9 215—was obtained by subscription in 1873-4. On February 24, 1876, this sum was put at interest, and the increase in less than three years has been more than one-third of the principal. But some effort should be made every year to increase it by additional subscriptions.

THE BOOK FUND

On December 31, 1877, this fund amounted to $2,060, of which $1,200 was in notes for balance of 28 subscriptions to perpetual memberships, $7,300 was loaned on note and mortgage, and $500 in the hands of the treasurer

On December 31, 1878, the fund amounted to $12,750, of which $10,500 was loaned on note and mortgage and $2,250 was on notes for balance of subscriptions to perpetual membership.

This fund is derived so far from the sale of perpetual memberships at $250 each, payable to cash or cash and notes, as provided in 2 5 of Art. II, of the constitution. The income derived from it is devoted to the purchase of reading matter.

The fund was increased during the past year $750 by the sale of three memberships—one to Charles F. Church, one to George H. Himes and one to Edward S. Kearney. To keep pace with the growth of the country and the wants of the library, at least that many of these memberships ought to be disposed of every year.

INCOME OF BOOK FUND.

The receipts and disbursements of this fund during the year were as follows:

RECEIPTS.

Interest on book fund	$1,200 10
Sale of newspapers	23 55
Sale of books	7 75
Total receipts	$1,271 40

EXPENDITURES.

Books	$871 60
Newspapers	113 96
Bookbinding	74 85
Total expenditures	$1 060 41
Excess of expenditures over receipts	211 01

On December 31, 1877, the condition of this fund was as follows

Outstanding liabilities	$311 75
Cash in hands of treasurer	15 87
Total liability of fund	$327 62

And on December 31 1878, as follows:

Outstanding warrants	$247 47
Cash in hand of treasurer	80 35
Total liability of fund	$327 82
Net gain for the year 1878	$116 87

This fund was commenced during the year in pursuance of a recommendation made in my last annual report for the purpose of publishing the amended constitution and by-laws and the annual reports and proceedings of the association since 1871. As has been already suggested in this report, 500 copies of a pamphlet of 66 pages, containing such reports, etc. have been published and also 600 copies of a catalogue of 174 pages, 300 only of which have been bound. It is proposed to bind the remainder from time to time as they may be needed, with a supplement, bringing the catalogue down to date.

Quite a number of the pamphlet and catalogue have been sent to the principal libraries and colleges of the United States, and the remainder of the bound catalogues have been distributed among the subscribers to the fund or sold or are on sale at $1 a copy

The receipts and expenditures of this fund are as follows:

Subscriptions from 61 persons hereafter named	$915 50
Sale of catalogues	11 00
Total of receipts	$926 50

EXPENDITURES

Printing 500 copies of reports	$124 80
Two woodcuts of Association seal	16 00
Ms of Catalogue	30 00
Printing 600 copies of catalogue	1,750 00
Total of expenditures	$2,661 80
Cash life of fund	17 50

ASSETS.

On December 31, 1877, the assets of the Association were as follows:

Total assets	$8,266 75
Total indebtedness	9 23 05
Balance of assets	$12,243 70

And on December 31, 1878, as follows:

Books	$10,764 86
Furniture	2,470 86
	13,235 72
Deduct for wear and tear	3,324 27
	$10,505 55
Home fund	12,755 48
Book fund	12,750 00
	$36,011 03

INDEBTEDNESS

General fund	$306 88
Life fund	16 99
Cat dogue fund	17 50
	$340 17
Balance of assets	$35,670 86

This is a gain of $5,039 90 during the year, and of $5,8 21 over the gain of 1875.

DIRECTORS AND OFFICERS

No change has been made in the officers of the association during the year except in the case of one director who resigned.

Mr. Henry A. Oxer is still employed as librarian and recording secretary. Mr. Philip C. Schuyler continues to act as treasurer, Mr. M. W. Fechheimer, as corresponding secretary, and each has been diligent and faithful in the discharge of his duties

The association is much indebted to the finance committee, Messrs. Henry Failing and C. H. Lewis for the examination and care of its accounts and the management of its permanent funds, and especially to the former who has bestowed particular attention upon the investment of said funds, and has kindly given the society the benefit of his special knowledge and opportunities in that respect.

What I said in my last report concerning the body of the directors still holds true. They have always been ready and willing so far as they could to act and to the affairs of the association and aid it with their means. But for the generous contribution of $100 each, by three of them to the cental fund it is not probable the work of publishing the reports and catalogue would have been accomplished

Of January 2 Mr William S. Ladd being unable, on account of bodily infirmities, to attend the meetings of the directors, resigned his directorship, and at the same time his son, William M. Ladd, was chosen by the directors to fill the vacancy caused by his resignation.

It seems proper in announcing the termination of Mr Ladd's active connection with the library, that some acknowledgment should be made of his services and donations to the association. He was one of the charter subscribers of the library and its first president and has been under all and each of its successors a generous friend To his kindness we are indebted for the convenient and pleasant rooms in which the library has been kept the past ten years, and with which this city and county may justly feel doubtful whether the association would not now be numbered among the things that were but are not.

And now I feel assured that I speak the sentiments of this meeting when I express my regret that we have lost his valuable and counsel in the board of directors and the sincere wish that he may live long to enjoy the good will of the many he has materially benefited through this association, and that his successor may prove worthy of his place and name.

MATTHEW P. DEADY,
President of the Library Association.

THE COLUMBIA RIVER BAR.

Major Gillespie's Report to the Chief of the Engineer Department—$5,000 Recommended for a Continuation of Survey.

[SPECIAL DISPATCH TO THE OREGONIAN.]

WASHINGTON, Feb. 2.—Gen. Humphreys, chief of the engineer department, has forwarded to congress, through the secretary of war, a report of Major Gillespie of the survey of the bar at the mouth of the Columbia river, made in compliance with the requirement of the river and harbor act of last year, with a view to its permanent improvement. Gen. Humphreys says: "The survey is completed as far as necessary to establish the condition of channels and bar, as existing at the time it was made, but prolonged and careful study of those conditions, as affecting the character of the harbor, is necessary in order to determine what artificial means may be requisite to maintain a permanent channel across the bar. I therefore concur with Major Gillespie's recommendation that $5,000 be appropriated for the continuation of the survey and for further observations upon currents at the entrance of the river."

LETTER FROM HILLSBORO.

A correspondent writing from Hillsboro under date of Jan. 31st, sends the following.

The directors of the Washington County Agricultural Society met at the court house to-day, and a resolution was passed, granting the society the ground on which the fair of 1878, during the time previous and within forty days of the time of holding the annual fair. The object of Mr. Nye is to put the track in a first-class condition as soon as the weather will permit and to inaugurate a week of "spring races" out of which he expects to make enough to repay him for the work on the track, he takes this plan to secure a place of training for horses free of charge. I understand that Mr. Nye is backed in this undertaking by Messrs. Libuay, Scoggin, Whites, Cornfall, and the owners of stock, which is under the care of Mr. Taylor, of this place. The peculiar adaptation of the soil for trials of speed, as well as the location of the grounds, make it a desirable place for horsemen.

A COMMITTEE

Was appointed by the board of directors to purchase a small tract of ground on the south side of the fair grounds upon which to move the buildings, so as to be close to the railroad track, and thereby save visitors the expense of back hire in order to reach the grounds. This when the west side railroad is finished five miles further, will necessitate the putting on of a train daily, which will start from Portland in the morning returning the same day. Owners of fast steppers can visit the track more easily then than any other location in the state whether now located or in contemplation, and any person desiring to visit the fair can do so as cheap as they can go to any other fair grounds in town at a distance of three to four miles. Only a dollar for the round trip, where can you go for less money?

If the people of Portland settle in the present location here in place of trying to buy a few hills and gulleys they could make a charter fair that would be an honor to Multnomah, Washington, Clackamas, Columbia and Yamhill. There have been some talk that Washington county does not want any other county to share with them. This is untrue and malicious. Gentlemen walk up and pay your money and act thereafter upon your

I firmly believe Fellows Hypophosphites has done more good than any medicine yet discovered in the cure of Consumption Bronchitis Asthma Whooping Cough and kindred diseases

W H. THOMPSON,

Telegraph Station

Harbour Grace Newfoundland

Persons suffering from impure blood or whose health is giving away, either as ministers or those who study closely will find Fellows' Syrup of Hypophosphites the material to build them up and the tonic to keep them there

Pagwash, N H DR, CLAY

Each effort of the mind every act of the body, will extract a volume of nervous element in proportion to the magnitude of the thought or action, and since Fellows' Hypophosphites really will supply the substance to the body, it must support the human mechanism successfully after the vigor of youth is passed

DR. PAUL M. BRENAN,

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Private Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease in plain and comprehensive language. But where he has found them crushed and broken down by disease mentally and physically, he has restored them to health and happiness for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh Bronchitis, and all diseases of the throat and chest by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs including spermatorrhea Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual This accounts in part for his great professional success

All surgical operations can be performed by his skillful hand and the patient need not fear the result

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers which follow he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines or instruments to any part of the country with full instructions and [illegible] done must contain two postage stamps

Everything strictly confidential and honorable

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION.

Persons coming to Portland requiring medical treatment of the proper kind, who desire to consult with me will please beware of persons who may try to coax them away to other so called Doctors through pretended friendship for the patients Look out for them they are knaves prompted by selfish motives and what they can make Be sure and ask for DR PAUL M BRENAN the *Medical Lecturer* and read his sign on his door
